

Media Pack 2022

DIY Week In print, online, face to face - providing media on demand

DIY Week is the information source for everyone in the home improvement market: retailers, wholesalers, distributors and manufacturers.

In print

Launched in 1874, DIY Week delivers market information, news analysis, sector-specific features and exclusive trading trend analysis.

Online

DIY Week is the UK's leading information source for the home improvement market. It delivers news as it happens as well as a searchable supplier database, a thriving recruitment section, and a weekly enewsletter.

Face to face

DIY Week Awards.

The industry's leading awards event, recognising talent in retailing and rewarding innovative products.

In print Authoritative and trusted

Area of Business:

Department Store	472
Wholesaler/Cash & Carry	322
Paint & Wallpaper Shop	254
Discount Store	184
Security Retailer	54
Mail Order	41
Supermarket Chain	24

For over 140 years, DIY Week has been the most authoritative and trusted information source for the home improvement market.

Published 12 times a year, DIY Week delivers more market news, product news and news analysis than any other publication in this field. For our retailer readers, DIY Week tells them what's happening in their industry.

DIY Week delivers sector-specific features, and range reviews aimed at key market sectors, highlighting sales trends, product development and market opportunities.

DIY Week delivers exclusive trading trend analysis. Our Leaders surveys – DIY Retail Leaders, Garden Retail Leaders and Wholesale Leaders – analyse the company accounts of the leading players in each of these markets, and give our readers an exclusive overview of market trends as well as enabling them to benchmark their own performance against the major players.

DIY Week delivers the highest quality audience in the home improvement and garden markets. The circulation of 7,000 copies is sent, by request, only to readers who meet our strict criteria! They have to be the decision-makers our advertisers want to reach. And we know exactly who our readers are: we know what jobs they do, what type of business they work in, and their purchasing responsibility.

News as it happens

DIY Week delivers the largest online audience to the DIY sector, over 30,000 visits per month. The bulk of this traffic comes direct from our weekly online newsletter, sent direct to the inboxes of more than 7,500 registered recipients every Thursday.

DIY Week's website is the only online news source in the UK exclusively for the home improvement industry. Its news content is up to the minute and when major news stories break its traffic figures rocket.

But it's not just about news: when buyers look for new products and suppliers, they look online. DIYWeek.net is the only website which gives retailers a searchable database of suppliers. Users can browse by product category, or check out the latest products in our product showcase section. They can contact suppliers instantly. Advertisers can log in at any time to monitor site traffic, see exactly how their company listing is performing, and check how much traffic DIYWeek.net is driving to their website.

Building relationships

The DIY Week Awards is the UK's main event for retailers and suppliers in hardware, housewares, garden, décor, tools and diy.

They attract entries and sponsorship from many of the market's blue-chip names, and on the night it's a veritable who's who of the DIY sector.

The DIY Week Awards will bring together the very best retailers, suppliers and products for a night of celebration and networking – an unmissable event for anyone in the DIY market!

For more information on how your company can get involved visit www.diyweekawards.co.uk

Adobe Acrobat PDF Version 1.3

Adobe Acrobat Distiller 5.x is the required software for creating pass4press version 2 compliant PDF files.

(PDF files created with other software, such as Agfa Apogee, must conform to the pass4press specifications and include page geometry information).

Files must be PDF version 1.3 or later.

All files to be supplied as composite CMYK (if a spot colour is required please contact the publisher).

Where necessary a bleed area of 3mm must be contained within the file.

Files must contain crop marks.

All images contained within the PDF must be high resolution (300 dpi recommended) CMYK format.

All fonts must be embedded.

Any trapping requirements should be applied by the file creator.

No trapping will be applied by the printer.

Combined colour ink density must not exceed 300%.

Files must be submitted as single pages.

QuarkXPress, Adobe Illustrator, Adobe Photoshop Images

All images in the file must be high resolution (300 dpi).

Colour images must be saved in CMYK mode as TIFF or EPS format.

Do not use RGB images.

Try not to use JPEG images. Convert them to EPS or TIFF format.

If you have to send JPEG images you must inform us.

Any images with clipping paths must be saved as EPS format,

otherwise the cutout will not work.

Because of issues with PDFs produced directly in InDesign and Adobe Illustrator, the PDF must be flattened in the program it was produced in to avoid layer and transparency problems, or we suggest these formats are made and supplied as Tiff or EPS files. Otherwise we do not accept any responsibility for errors occurring in the final print run.

Online specifications

We accept .gif .jpg .png .html

We cannot accept a Flash file, Word, PowerPoint or Publisher documents

Typefaces - All typefaces must be rasterised

Files to be 72dpi at 100% (actual size for ad)

File size should not exceed 300kb

Colour must be RGB No CMYK colours

No spot colours

No embedded ICC profiles

No Pantone colours
